All candles highlighted in **RED** are currently available to order from the bookstore website (jordanville.org/candles) or candle factory website (candles.jordanville.org). The candles that are highlighted in **BLUE** are currently only available to order on the candle factory website via the online form by placing your order in the Special Notes section. We will send invoice to include cheapest shipping for these boxes or we can give you a quote to let you know of shipping costs before we send the order. Please let us know your preference. It is cheaper to ship a Large Box than two Standard Boxes. You may also come to pick up the order at the Monastery to avoid shipping costs. All products will be available to purchase in the newly designed website to be released sometime in August 2018. We will provide live shipping quotes in order for the customer to choose the cheapest method of shipping delivery. Sometimes a flat rate box will work the cheapest and sometimes a live shipping quote from UPS or USPS. This will ensure that we provide the cheapest option available to ship our candles.

* Our 3/8” candles are around 10mm in diameter. For churches that use 13/32” (10.319mm) our 3/8” will work well also. If you are interested in 11/32” (8.731mm) we can also make this size as a standard candle as well as any other common candle sizes like 5/16”, 7/16”, 15/32”, 1/2”, 7/8”. More products will be added to our website in the near future.

** The 3/4” candles are a little thicker at the base only, around 20 - 21mm, so they can fit easily into the larger candle holders that are typically used in Russian Churches.

*** Our 1/4” candles are currently closer to 9/32”, around 7mm

We **only** accept our own candle stubs to ensure that we always provide 100% solid pure beeswax candles as we do not mix any paraffin or other chemicals. This is very important for our quality control so as to ensure that when you buy 100% beeswax candles you are actually getting only beeswax with no additives and paraffin. **We give a credit of \$2.00 per pound for future orders.**

We deliver for free for large orders where possible. Please inquire.

This sample package includes one of: JC1B, JC1E, JC2A, JC2B, JC3B, JC3E (Wick in JC2A and JC2B will be changed to cotton square braid by the end of August 2018. All the other candles use cotton square braid wick.
